

TONER 100 cc

Decorative base toner

DESCRIPTION

Toner Isocolor[®] is a water-based special toner to be added to the base of Isocolor decorative coatings.

Toner Isocolor[®] is available in 12 tints called Serie A, 12 tints called Serie Z and 5 tints called Serie S. Different series have different pigment concentration. They are complying with the directive 2004/42/CE for VOC emissions.

STORAGE AND SAFETY

Toner Isocolor[®] is kept for at least 12 months in the original sealed containers and kept in a cool and dry place at temperatures between 5 and 35°C. If stored under these conditions, it has no stability problems.

The product is sensitive to frost.

The product is intended for professional use. Consult the safety data sheet before use.

IMPORTANT

This product is formulated to be used as in the application above. The addition of any other product compromises the final result of the surface.

All information contained in this sheet is based on the best practical and laboratory experiences. It is the customer's responsibility to verify that the product is suitable for the intended use. The manufacturer declines any responsibility for the results of incorrect applications. It is advisable to always carry out tests on small surfaces before application. Data can be changed at any time. This sheet replaces and cancels previous ones.

It is essential that the technical and safety data sheets of the other products mentioned in this technical data sheet are also consulted. The product is intended for professional use.
